

Cuts in L.A. County Budget Are Demanded

Recommendations for cuts in the \$100,513,178 Los Angeles county budget for 1945-46, which would reduce the \$9,621,015 increase in county property tax demand impending unless cuts are made, were presented at the continuation of the public hearing on the budget, conducted by the Los Angeles county board of supervisors, in the Hall of Records, Los Angeles, Thursday morning, July 5, by the Los Angeles citizens' budget committee, as follows:

1. Remove all new positions on the budget.
 2. Secure adequate administrative studies of every county department.
 3. Delete the \$50,000 appropriation for the county symphonic band.
 4. See that, when the budget sets up an appropriation for a specific purpose, the money is expended for that purpose or is allowed to go to surplus, instead of being spent for unbudgeted purposes.
 5. Complete and adopt a master plan for park purchase and development before further expenditure of county money is made.
 6. Expand county funds for park purposes only for facilities which will be used by the people from the entire county area.
 7. Reduce land purchases to \$507,000 as follows: civic center acquisition, \$372,000; branch civic center sites, \$125,000; girls recreation camp, \$10,000.
 8. Follow a stable program of acquiring land in the civic center area.
 9. Survey the county service for efficiency and space needs, so an overall capital expenditure program, including costs to taxpayers, will be available.
 10. Omit new structures not needed at the present time.
 11. Use the \$1,000,000 included in general reserve for war emergencies, as earlier proposed, for plans for a new courthouse and civic center land acquisition.
 12. Deny the request for an arsenal for the district attorney as a duplication of the sheriff's arsenal.
- Organizations which make up the citizens' budget committee include the Torrance Chamber of Commerce.

Eradication of Tuberculosis Is Discussed

Tuberculosis could be eradicated within 10 to 15 years to the point where typhoid fever is today, compared with its ravages of years ago, Dr. J. R. Neal, county health department chest clinician, told the Torrance Lions club at its meeting Tuesday in Civic Auditorium.

In a program arranged by Dr. Don C. Moshos, member of the club, Dr. Neal said that the upsurge in World War II is very small compared with the increase of 10 per cent in the cases which followed the start of World War I.

Speaking on the question of preventive, he declared that he believed that skin tests were far better to catch the disease in its early stages than the use of vaccine, with its resulting sores, to prevent tuberculosis.

Rollin Smith, D.V.M., first vice president, presided over the meeting in the absence of President Harry B. Lewis, and guests included Councilman G. V. Powell and M. J. Zammarino.

Living Costs in Los Angeles Area Shows Gain

Higher prices for men's haircuts and increased costs of eggs and oranges were mainly responsible for a slight (0.2 per cent) increase in Los Angeles area living costs during the thirty day period ended May 15, Charles A. Roumasset, economist for the U. S. Bureau of Labor Statistics, announced. The bureau's cost of living index, which has risen steadily since last July, is now 30.2 percent above the average level of the years 1935-1939.

Food costs on the whole were stable, showing only a 0.1 per cent increase over the month. Higher prices were recorded for eggs (up 0.1 percent), oranges (up 10 percent), carrots (up 7 percent) and onions (up 24 percent). Almost entirely offsetting this upward trend were price decreases for potatoes (down 19 percent), lettuce, (down 5 percent) and cabbage (down 11 percent).
